

WANDA & NOVA DEVIATOR - Frozen Images
Technical rider

GENERAL

Technical rider is a part of the contract between the producer and the organizer of the performance. The requirements listed in this rider are designed to allow the best possible realization of the performance. Any departures from the requirements listed below need to be agreed upon by common consent between the producer, the performance technical assistant and the organizer. Technical adaptations are possible and are matter of further arrangements. The organizer should provide the producer with technical information about the venue (dimensions, a list of technical equipment, stage plan – ground plan, side view). On the basis of these information, the performance can be adjusted to the venue.

STAGE

Minimal width of the stage is 6m, minimal depth 5m. Minimal height for the light setup is 3m. The floor needs to be black or dark colours. The stage is open / no curtains, or – in case the space is not appropriate – black curtains will be used on sides and in the back (this will be decided upon the examination of the performing space).

- min. 10 ch dimmer
- lighting table
- cables: extension cord, dividing cord schuko, euro
- Light for the audience space needs to be controlled from the lighting booth

SET DESIGN

The stage set design includes (provided by producer):

- 2 keyboard stands + media equipment (computers, cables, controllers etc)
- music equipment (electric guitar, synthesizer)
- 5 small cameras
- small table
- costumes

Requirements for stage set:

- 2x dividing cord schuko (6-8) (220V, black)
- 2x extension cords schuko 10m (220V, black)
- 2 schuko, type F, plugs on stage

PERFORMANCE

The performance is approximately 90 minutes long; there are no breaks. The dressing room must include a shower and a toilet.

SET UP

Six (6) hours are required for the setup of the performance and for the rehearsals. We kindly ask you to send as many information as possible about the venue, so we may adjust the performance to the performing space.
